

Problems in website:

SIGNING UP

1) While signing up, saw notification: Website not secure.

2) The minute u login for 1st time, no welcome message in inbox..

ADD PROPERTY

What do you mean by other location? It might be better to say : Address

1) What do u mean by wireless internet and internet (difference?)

2) HEATER/HEATING* not heat

3) Breakfast includes everything (no need to write tea/coffee separate)

4) Local market* not souq (we have International customers)

5) If you write mosque, you also need to include temple, church, monastery,

0. It is better if u include other/ popular landmarks: _____, (or something like that, e.g.: next to DCC mall)

0. Include another point or section- sharing amenities: Eg. Bathroom, kitchen, wifi, garden...)

0. NEIGHBOURHOOD: include Gym, school, gym, banks..

0. Just incase= add format next to date mm/dd/yy

0. We can also add option of selection for renter daily rent OR monthly o daily. o monthly. (Helpful for short & long term rentals)

0. Can have currency mode as well as amount option for rental if want to add it (up to us)

0. How to add image?

LISTING UPLOADED (SHOWN IN USERS BACK PROFILE)

0. Also include option on listing: delete, (edit), archive

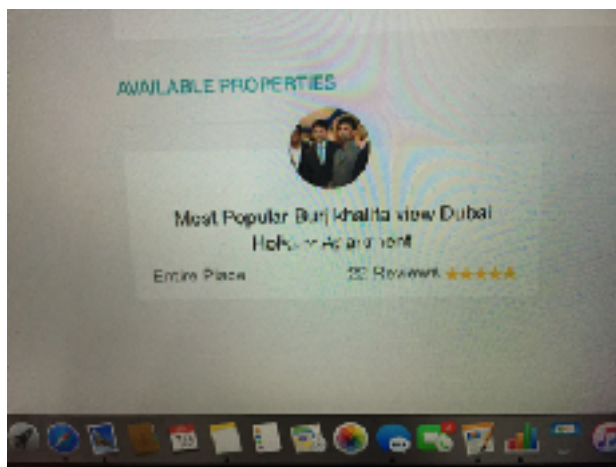

0. Image not visible

*Check wimdu.com - need a separate tab for engagements for listing by user (includes calendar (booked, N/A, prices), response on posts)

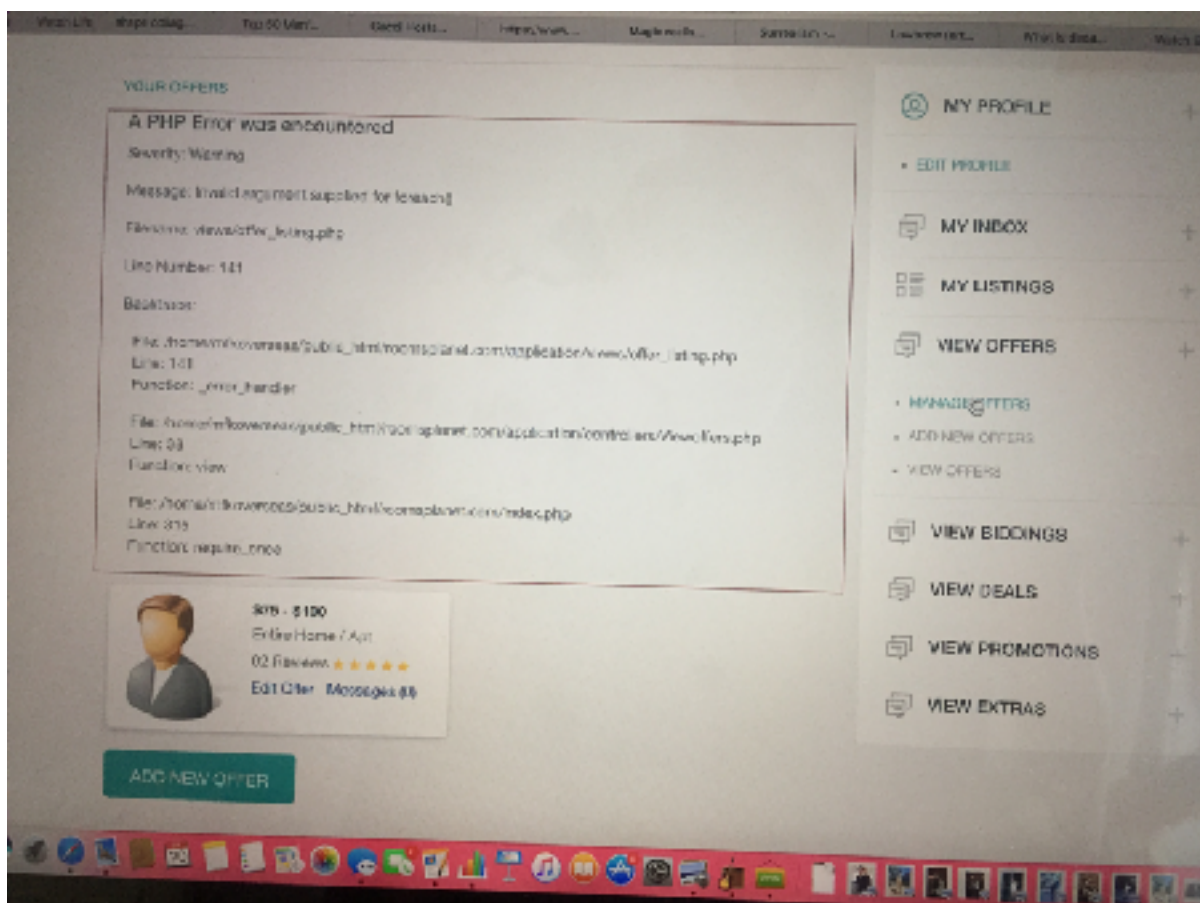

Offer : NEW

1. Amneties, neighbourhood, —> change option to multiple options
2. Market option on the side does not so anything. It would be better to show the new listing's position set up by the user or something

When searching for properties as an outsider: The font not clearly visible

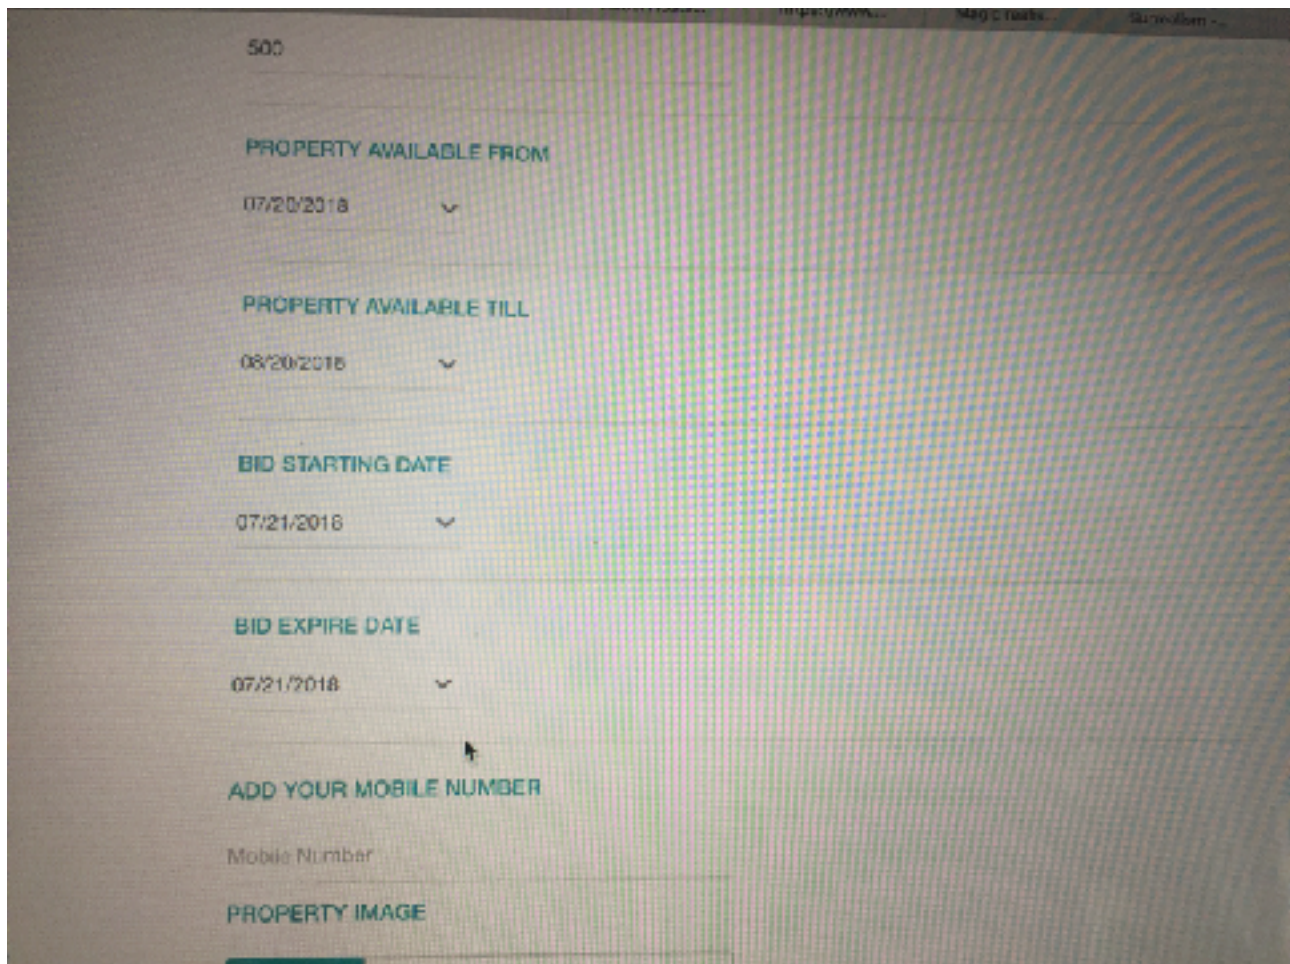

MANAGE LISTING

When I click on manage listing after listing an offer, this came up.

BID: NEW

1) Should also include exact time Eg: Bid time start- bid time end. Bids are mostly short... maybe 1/2 hr...

A screenshot of a web form titled "500" at the top. The form contains several sections: "PROPERTY AVAILABLE FROM" with a date dropdown set to "07/20/2018"; "PROPERTY AVAILABLE TILL" with a date dropdown set to "08/20/2018"; "BID STARTING DATE" with a date dropdown set to "07/21/2018"; "BID EXPIRE DATE" with a date dropdown set to "07/21/2018"; "ADD YOUR MOBILE NUMBER" with a text input field labeled "Mobile Number"; and "PROPERTY IMAGE" with a text input field. A mouse cursor is visible over the "BID EXPIRE DATE" dropdown.

2) Add phone number: There should be a small (i) icon that should tell people to add code eg +971 (or you can give a separate drop down box too for them to choose)

3) I think it is a good idea to include option of uploading videos (OR option where user has to choose between videos and pictures)

When I click on BID as a normal user, there is no custom search where bids are divided on the basis of the country, type of apartment (hotel, 3 bed, 6 bed).

Please make an option of reminder for users where they can select the bids they are interested in, so that they are sent a reminder of the start time (of the bid) in order to avoid missing out
